Churches, schools, sales and marketing departments, government offices, videographers, and recording studios alike will benefit from the ease, speed, affordability, and professional results derived from the Microboards PF-3 Print Factory. You are certain to make a positive impression with finished CDs, DVDs, Blu-ray Discs, and HD-DVDs that look amazing, thanks to HP inkjet technology and the vibrant colors derived from HP Vivera inks. When you use the PF-3 Print Factory, the process of producing professionally finished discs—in mid-to-high volumes—is nearly effortless. Anyone—even novice users—can easily operate the printer, thanks to a radically intuitive user interface. Set it up and walk away—the 100-disc capacity enables automatic unattended printing of all your discs.

The industrial PF-3 Print Factory is your answer to

printing discs quickly and cost-effectively—delivering discs with both text and graphics in less than 20 seconds and for only 25 cents per disc. SureThing label design software enables you to create labels with a professional flair. And whether you're printing full-color, full-coverage discs or light coverage with text only, you'll enjoy results of the highest quality. Our 4th generation disc handling technology provides smooth, clean images; and HP inkjet technology, with vibrant HP Vivera inks, provides consistently brilliant color—in text and images—on each and every disc.

Take your efforts to the next level with Microboards innovation, and our service and support technicians who are always available—if or when you need them.
