1-to-10 CD tower. Other models can be seen on the opposing DVD tower page.

CopyWriter CD Towers

As the world's original producers of tower duplicators, Microboards understands the importance of reliable technologies that deliver what you want, when you want it. Our innovative history continues with the CopyWriter tower series. No matter how many copiers you require, the CopyWriter tower series provides the perfect solution for your duplication needs. Microboards' affordable, professional-level CD copying system is stand-alone, so no need for multiple cords or computer connections. CD tower copier systems range from configurations of 3, 5, 7, or 10 recorders.

COPYWRITER CD TOWERS

- Easy to use—no setup required
- Standalone duplication
- 52X capability with selectable recording option
- Disc-to-disc duplication
- 3, 5, 7, or 10 recorders in a single tower
- Five-button operation

Supported CD Formats

CD-DA (Red Book), CD-ROM Modes 1 & 2, XA Forms 1 & 2, ISO 9660, Photo CD, CD-Extra, Mixed Mode, Video CD, Hybrid CD, HFS

PRO SERIES

- 160 GB hard drive for dynamic image archival
- Track extraction
- Production quantity counter
- Copy + Verify
- CD+G/Karaoke mode

Blu-ray Towers

A new era in recordable media is here. Expected to revolutionize digital and high-definition storage, the Blu-ray disc provides high-capacity data recording and duplication of 25-50 GB per disc.

The CopyWriter Blu-ray series of tower duplicators employs 4, 7, or 10 recorders. The hard drive comes standard with the Pro system and allows for archiving of up to six 25GB disc images. An intuitive, menu-driven display and a 5-button control interface provide one-touch operation for the novice user while providing advanced features for the professional. Also available is the Blu-ray daisy-chainable series (see opposing page).

BLU-RAY TOWER FEATURES

- Standalone 4, 7, and 10-bay Blu-ray/DVD/CD duplicators
- BD NET-20 & BD NET-10 allow 10+ towers to be connected together
- One-touch duplication
- 500 GB HDD standard for dynamic BD, DVD, and CD image archival
- Supports writing to BD-R/BD-RE, DVD+/-R, DVD+/-RW, DVD+/-R Dual Layer, CD-R
- Automatic format detection
- Simulation mode to ensure recording stability
- Copy + Verify
- Production quantity counter
- Automatically detects BD, DVD, and CD masters

PRO SERIES

- 160GB hard drive for dynamic image archival
- Track extraction
- Copy + Verify
- Production quantity counter

LIGHTSCRIBE TOWER SERIES

- 3, 5, 7, and 10 recorder systems
- Burn CDs at 48X and DVDs at 18X
- Flip over, and print LightScribe images
- Hard drive standard, no PC required
- HP Image Template software included

PC Connect Upgrade Option

- An optional PC connection is also available on DVD duplicators using a USB 2.0 interface module for mastering.
- Zulu 2.0 disc mastering software included (Windows 2000 & XP)

DAISY-CHAINABLE TOWERS

- Same great features as Premium Pro DVD and Blu-ray tower copiers
- NET-20 or NET-10 controller towers allows for more than 10 additional DVD or Blu-ray towers to be connected together
- Potential to burn hundreds of CDs, DVDs or BDs simultaneously
- 10-drive 120/240 365 watt

Microboards' DVD PRO 10-Bay Tower

Recorders	Dimensions	Weight
3	17 x 7.5 x 10.5	28
5	17.5 x 7.5 x 17	55
7	17.5 x 7.5 x 17	55
10	16.5 x 7.5 x 25	65

Chart applies to both DVD and LightScribe towers.

Microboards' Premium DVD Copiers feature high-speed, industrial recorders that copy both DVD (18X) and CD (48X) formats. Microboards' tower duplicators use a unique high-quality controller exclusive to Microboards; that's why Microboards always supports the latest record speeds and has the best support in the industry. A two-year warranty comes standard with all Premium DVD Tower Copiers.

LightScribe Towers

New from Microboards are the world's first LightScribe tower duplicators. Invented by HP, LightScribe technology allows the printing and burning of a CD in the same drive.

The towers come in the same four sizes as the Premium DVD Towers—3, 5, 7, and 10-recorder systems, all burning CDs at 48X and DVDs at 18X. Flip the disc over, and LightScribe prints a grayscale image onto colored CD-R, DVD-R, or DVD+R LS discs simultaneously.

Daisy-Chainable, Multi-Configurable Towers

New multi-tower configurations allow over ten CopyWriter DVD and Blu-ray towers to be daisy-chained together.

DVD PRM NET-20 & BD PRO4X NET-20 are two-tower configurations daisy-chained together.

DVD PRM NET-10 & BD PRO4X NET-10 are additional ten-recorder towers which include cables to connect to other NET-20 or NET-10 systems.

If purchasing multiple NET-20 systems to connect together, an additional cable—3M-NET2-1.0—is required for each additional NET-20 system.
