G3 DISC PUBLISHER

The benefits of publishing worship services, wedding ceremonies, sports events, trainings, and audio and video performances to disc are numerous, but outsourcing this task can be time-consuming and expensive. This is why Microboards Technology has a solution designed to meet your CD, DVD, and Blu-ray publishing needs quickly, easily, cost-effectively—and in the comfort of your office.

Your all-in-one production package, the reliable entry-level G3 Disc Publisher, combines a high-speed CD/DVD combo recording drive—or optional Blu-ray combo drive—and an integrated HP inkjet printer into one sleek device. Designed to handle short-run volumes with a capacity of up to 50 discs, the G3 Disc Publisher delivers a cost-per-disc of just 23 cents; and it accommodates virtually any disc format.

The G3 Disc Publisher puts you in command. It sports a sleek, compact design that allows for desktop placement for easy, immediate access. Whether you're recording and printing one disc or fifty, this device makes the task effortless. Simply set up your job, walk away, and the G3 Disc Publisher does the work for you. The technology used to handle each disc is proven to reduce vibration during the printing process, creating a smoother, cleaner finished image. Proven HP inkjet technology enhances the overall image quality with text and images that look amazing, thanks to the brilliant, long-lasting color you can only get with HP Vivera inks and the highest resolution (4800 x 1200 dpi) in the industry.

Easily connect the G3 Disc Publisher to your computer via a single USB 2.0 cable and assume greater control over your digital content, or publish remotely over a network using PrintWrite software. And you can always count on Microboards' excellent service and technical support for any assistance you might need along the way.

CD/DVD Part No.: G3P-1000
Blu-ray Part No.: G3BDP-1000
Recorders: 1
Disc Input: 50
Typical Weekly Throughput: 25-100 Discs
Burn Speed: 24X DVD / 48X CD / 8X Blu-ray
